Internal circular no: 09/2022

BD/PGH -QMU 04/2022 20/12/2022

To all staff members,

Refrain from using lunch sheets within the hospital premises

As used lunch sheets is neither recyclable nor degradable, Proper disposal of used lunch sheets is becoming a major problem in the hospital waste management system. Reduction of lunch sheet use is the most effective method to prevent environmental pollution.

Therefore all the staff members are kindly requested to refrain from using lunch sheets within the hospital premises from 1st January 2023. Please adopt an environmental friendly wrapping method or use a healthy lunch box to carry your meals.

Thank you.
